

# Contents

<b>Chapter 1: Introduction</b> .....	<b>1</b>
1.1. Introduction .....	1
1.2. Classification of Storage Based on Technologies .....	2
1.2.1. Thermal Energy System .....	2
1.2.2. Mechanical System .....	3
1.2.3. Electrical and Magnetic Field Storage System .....	3
1.2.4. Electrochemical Storage System .....	4
1.2.5. Comparison of Energy Storage Technologies .....	4
1.3. Front-of-the-Meter vs. Behind-the-Meter .....	6
1.4. Power, Energy, and C-Rate .....	7
1.5. Battery Module & Racks .....	7
1.6. Key Guidelines for Battery Configurations .....	8
1.7. Clarification on Rated vs. Usable Capacity .....	11
1.8. Power Conversion System (PCS) Integration .....	11
1.9. Importance of Matching Batteries to PCS .....	11
1.10. Typical Duration and System Configuration .....	12
1.11. Voltage, Current, and Power Considerations in Battery Systems .....	13

- 1.12. Battery Degradation in Utility-Scale Systems ..... 14
- 1.13. Understanding Throughput in Battery Degradation ..... 16
  - 1.13.1. Example at the Cell Level ..... 16
  - 1.13.2. Example at the Utility Scale ..... 17
- 1.14. Understanding C-Rate and Its Impact on Battery Lifespan ... 18
- 1.15. The Role of Temperature in Battery Degradation ..... 18
- 1.16. Depth of Discharge and Average State of Charge: Impact  
on Battery Degradation ..... 18
  
- Chapter 2: The BESS Project ..... 21**
  
- 2.1. Battery Enclosures Overview ..... 22
- 2.2. Battery Enclosure Functions and Features ..... 23
  - 2.2.1. Dust and Moisture Protection ..... 23
  - 2.2.2. Additional System Component Enclosures ..... 25
- 2.3. Power Conversion System (PCS) in BESS ..... 25
- 2.4. DC-Block vs. AC-Block Architecture ..... 28
- 2.5. PCS Safety and Selection Considerations ..... 30
- 2.6. Utility Coordination and Safety Requirements ..... 30
- 2.7. Grid-Forming vs. Grid-Following Inverters ..... 31
- 2.8. Liquid-Cooled Systems ..... 32
- 2.9. Air-Cooled Systems ..... 33
- 2.10. Operational Agreements and Thermal Strategy ..... 33

2.11. Transformers in Utility-Scale BESS Installations .....	35
2.12. Auxiliary Transformers.....	37
2.13. Substations and High Voltage (HV) Scope .....	39
2.14. Substations and Metering in BESS Projects.....	40
2.15. Round-Trip Efficiency (RTE) .....	40
<b>Chapter 3: The BESS Controls.....</b>	<b>43</b>
3.1. BESS Control Systems .....	43
3.2. Battery Management System (BMS) .....	45
3.3. BMS Protocols.....	46
3.4. Interfacing with a BMS.....	47
3.5. Cell Voltage Balancing .....	47
3.6. Energy Management System (EMS).....	48
3.7. Ensuring Safe Operations .....	48
3.8. Role of Artificial Intelligence.....	49
3.9. Native vs. Third-Party EMS .....	49
3.10. Data Historian and Analytics .....	49
3.11. Efficient Storage and Analysis of Operational Data.....	50
3.12. Leveraging AI for Data Interpretation.....	50
3.13. Working with External Controllers .....	50
3.14. Integration with SCADA and Grid-Level Controllers .....	52

- 3.15. Fleet-Level Controls ..... 52
- 3.16. Virtual Power Plants (VPPs) ..... 53
- 3.17. Subscription Control Services (SCS)..... 53
- 3.18. Cybersecurity ..... 54
  
- Chapter 4: Project Development ..... 55**

  - 4.1. BESS Project Development Overview ..... 55
  - 4.2. Project Development Business Models ..... 55
  - 4.3. BESS Project Development Stages ..... 56
    - 4.3.1. Development Models ..... 57
    - 4.3.2. Exit Strategies & Ownership ..... 57
  - 4.4. Revenue Streams in BESS ..... 58
  - 4.5. Spinning Reserve and Capacity Markets ..... 61
  - 4.6. Contracting in BESS Projects ..... 66
  - 4.7. Project Execution Summary ..... 66

  
- Chapter 5: Project Finance ..... 69**

  - 5.1. Tax Equity ..... 71
  - 5.2. Cost Control ..... 73

  
- Chapter 6: Engineering, Procurement, and Construction ..... 75**

  - 6.1. Early-Stage Engineering ..... 75

6.2. Site Planning ..... 76

6.3. System Architecture ..... 77

6.4. Solar plus Storage (PV + Storage) ..... 78

6.5. DC-Coupled PV + Storage ..... 80

6.6. AC- vs. DC-Coupling ..... 81

6.7. Standalone BESS ..... 82

6.8. Microgrid Configuration ..... 83

6.9. Interconnection ..... 84

6.10. Sizing the System ..... 86

6.11. Augmentation and Overbuild ..... 88

6.12. Typical SLD/Site Layout ..... 91

6.13. System Integration ..... 93

6.14. Complete Design Package ..... 94

    6.14.1. Components of the Design Package ..... 94

    6.14.2. Iterative Design Stages ..... 97

6.15. Codes and Standards ..... 98

    6.15.1. Codes ..... 98

6.16. Procurement ..... 100

6.17. Request for Proposal ..... 104

    6.17.1. Battery Energy Supply Agreements ..... 104

6.18. EPC Contract Structures ..... 111

6.19. Common Contracting Types	112
6.19.1. Turnkey	112
6.19.2. BoP + BESS Supply Agreement	113
6.19.3. Multi-Contract	116
6.20. Division of Responsibilities	116
6.21. BESS Construction Process	117
6.22. BoP Contracting Process	118
6.23. Construction Works	121
6.24. Civil	122
6.24.1. Civil Construction in Battery Energy Storage Projects	122
6.24.2. Delivery of Major Equipment	122
6.25. Electrical	123
6.25.1. Electrical and Mechanical Integration of BESS	123
6.26. Testing, Commissioning, and Start of Commercial Operations	124
6.27. Mechanical Completion	125
6.28. Cold Commissioning	125
6.29. Hot Commissioning	126
6.30. Final Performance Testing	127
6.31. Substantial Completion (SC) and Transition to Operations	129
<b>Chapter 7: Operations and Maintenance</b>	<b>131</b>

7.1. Operation & Maintenance (O&M) of BESS Plants ..... 131

7.2. Common O&M Arrangements ..... 132

    7.2.1. Long Term Service Agreement ..... 132

    7.2.2. BoP O&M ..... 133

    7.2.3. Owner-Provided O&M ..... 133

7.3. Augmentation ..... 134

7.4. Capacity Maintenance ..... 136

    7.4.1. Maintenance ..... 136

        7.4.1.1. Preventative Maintenance ..... 137

        7.4.1.2. Corrective Maintenance ..... 138

7.5. Product Documentation ..... 141

7.6. Software and Network Components ..... 141

7.7. Operations ..... 142

7.8. Data Analysis ..... 143

7.9. Performance Tracking ..... 144

7.10. Energy Capacity Testing ..... 144

7.11. Battery Warranties and Guarantees ..... 145

    7.11.1. Warranties ..... 145

    7.11.2. Performance Guarantees ..... 146

7.12. Enforcement of Warranties and Guarantees ..... 148

7.13. Market Participation ..... 149

7.14. End of Life/Decommissioning ..... 150

**Chapter 8: Safety and Environmental Considerations ..... 151**

8.1. Mitigating Safety Risks ..... 151

**References ..... 159**
